Professional Experience

Front-End Developer, *IT Planet*   09/2022 – present
                                                                                          Mumbai, India
- I have gained extensive experience in creating dynamic and responsive websites and applications that provide an exceptional user experience.
- My technical expertise in HTML, CSS, JavaScript, and other web development frameworks has enabled me to design visually appealing and functional websites..

Front-End Developer, *Kwebmaker* ☒   05/2022 – 08/2022
                                                                                          Mumbai, India
- As a front-end developer at Kwebmaker, I worked on several projects for a variety of clients, including Ajanta Pharma Limited, Hafele Appliances, Astral Bathware, Phoenix Citadel, TimesPro, GJEPC, and Ongo
- Collaborated with cross-functional teams to create responsive web designs for clients.
- Worked on multiple projects simultaneously, improving my project management and multitasking skills.
- Successfully completed projects within timeline constraints.

Front-End Developer, *Capes India* ☒   04/2022 – 05/2022
                                                                                          Mumbai, India
- As a Developer at Capes India, I was responsible for working closely with the development team to design, develop, test, and deploy.
- Designed and developed a responsive, cross-browser-compatible website.
